- Adjacent bath servicing:
_____ guest; _____ pool area
 - Private bath
 - Closet space:
_____ walk-in or _____ wall closet
 - Location secluded from Foyer
 - Built-in book cases
- _____ Ceiling height; _____ Flooring
- Suggested room dimensions: _____x_____

- Intercom system
- In-wall pest control
- Residential elevator
- Dumbwaiter
- Safe: ___ floor or ___ wall

Additional comments:

The Design

Please indicate the following desired elements necessary in creating your home:

19. Number of Levels, Living Area & Budget:

- One Story
- Two Story: ___ w/ balcony ___ covered
- Other: _____

Proposed Living Area: _____ S.F.
 Floor Area Ratio (FAR): _____ if required
 Projected Construction Budget: \$ _____

20. Number of Bedrooms and Baths:

- 1 Master Bedroom
- Study/ Home office/ Bedroom
- Guest Bedroom(s)
- Secondary (children's) bedrooms
- Total Bedrooms (added from above)
- Total Number of baths

21. Swimming Pool Area:

- Swimming Pool: ___ courtyard design
- Spa: ___ gas heated
- Screened: ___ 1 story ___ 2 story
- Pool house cabana: ___ with kitchenette

The Construction

Please indicate the preferred methods of construction:

22. Foundation Design:

- C.M.U. stem Wall (standard)
- Monolithic slab
- C.M.U. pilings/ floor joist (crawl space)

23. Exterior Porch Construction:

- 1st Level Entry Porch:
- Concrete slab on grade
 - Brick or ___ pavers on concrete slab
 - C.M.U stem wall w/ wood joist & decking

- C.M.U. pilings w/ wood joist & decking
- Concrete pavers on compacted grade

1st Level Lanai:

- Concrete slab on grade
- Brick or ___ pavers on concrete slab
- C.M.U stem wall w/ wood joist & decking
- C.M.U. pilings w/ wood joist & decking
- Concrete pavers on compacted grade

2nd Level Porch:

- Light weight concrete
- Brick pavers or ___ tile surface
- Wood decking over floor joist

24. Exterior Walls:

1st Level Exterior

- Concrete masonry units
- Pre-cast (tilt up) walls
- Autoclaved aerated concrete
- Styrofoam form blocks
- Wood frame ___ 4" or ___ 6"
- Steel studs

2nd Level Exterior:

- Concrete masonry units
- Wood frame ___ 4" or ___ 6"
- Steel studs

25. Interior Walls:

- Wood
- Steel

26. Roof Construction:

- Manufactured wood trusses (standard)
- Steel trusses

27. Roof Material:

- Fiberglass shingles
- Concrete tiles:
 - ___ Flat or ___ Barrel
- Galvanized Steel (5v Crimp)
 - ___ 26ga. or ___ 29ga.
- Shakes:
 - ___ Wood or ___ simulated
- Standing seam metal: _____ color

28. Windows:

- Wood; ___ w/ muntins (grills)
- Aluminum; ___ w/ muntins (grills)

Glazing: ___ single or ___ double pane
 Type: ___ single/double hung, ___ casement

Additional comments:

8. The secondary BEDROOMS are typically designed for the children and must have:

- Walk-in closets
 - Wall closet is sufficient
 - Direct access to a bath
 - Private bath
 - Desk or study niche
- _____ Ceiling height; _____ Flooring
Suggested room dimensions: _____x_____

Other features include:

- Located opposite Master Bedroom side
- Located upstairs: ___ with balcony

Additional comments:

9. The GUEST BEDROOM can be a universal room for guest, children or used as an in-law suite. This room should include:

- Walk-in closet
 - Wall closet is sufficient
 - Location secluded from other bedrooms
 - Located upstairs: ___ with balcony
- _____ Ceiling height; _____ Flooring
Suggested room dimensions: _____x_____

Other features include:

- Adjacent bath servicing:
___ guest; ___ pool area
- Private bath:
___ tub/shower combo or ___ shower
- Double vanities in bath

Additional comments:

10. The secondary BATHROOM is always accessible to the children's rooms having:

- Direct access to both bedrooms
 - Adjacent location for:
___ guest; ___ pool area
 - Tub combination
 - Shower
 - Double sinks
 - Separate private vanities
 - Linen closet nearby or: ___ within bath
- _____ Ceiling height; _____ Flooring

The MASTER BEDROOM should be a retreat specifically tailored to the homeowner's needs. It is important to have:

- Double entry doors
 - Separate walk-in closets
 - Walk-in closet within bedroom
 - Walk-in closet within the bath
 - Extra wall space for wider furniture
- _____ Ceiling height; _____ Flooring
Suggested room dimensions: _____x_____

Other features include:

- Sitting area:
___ within bedroom or ___ separate area
- Located upstairs: ___ with balcony
- Fireplace: ___ between sitting area
- Juice/ coffee bar
- Washer & Dryer at Master Suite area

Additional comments:

12. The MASTER BATH:

- Roman style tub: ___ with spa jets
 - Separate vanities:
His: ___ ht.
Hers: ___ ht. ___ with knee space
 - Dressing area with wall mirror
 - Enclosed toilet area: ___ with linen cab.
 - Walk-in Shower (no glass door)
 - Steam shower
- _____ Ceiling height; _____ Flooring

Other features include:

- Exercise area: ___ with juice bar
- Fireplace: ___ between bedroom
- Double French entry doors
- Private garden
- Bidet
- Separate water closets
- Double Shower heads in shower

Additional comments:

13. The LANAI is designed to view the back yard, pool area, golf course or lake and must have:

- Direct access to a pool bath
- Summer kitchen:
 - ___ built-in grill; ___ refrig. ___ space for portable grill; ___ sink; other: _____
- Closet for pool supply storage
- Outdoor fireplace; ___ gas
- Screened Porch
 - _____ Ceiling height; _____ Flooring

Additional comments:

14. The UTILITY ROOM is typically used as a laundry area and should have these elements:

- Not used as access route to garage
 - Adjacent to _____ area
 - Ironing board space: ___ built-in
 - Floor drain under washer
 - Laundry chute (from 2nd level)
 - Desk/ work area
 - Storage cubicles for book bags, etc.
 - _____ Ceiling height; _____ Flooring
- Suggested room dimensions: _____x_____

The dryer must be located to the:

- Left of the washer
- Right of the washer
- Not a concern

Special areas for pets:

- Dog shower
- Cat Litter box space
- Doggy door to outside

Additional comments:

15. The RECREATION ROOM or BONUS ROOM can have many uses. It can be used as a game room, additional suite or media room. Please include these features:

- 1st level; adjacent to: _____
 - 2nd level; overlooking: _____
 - Located over: ___ Garage or: _____
 - Adjacent bath
 - Used exclusively as Media Room
 - Pool table space (min. 14'x16')
 - Exterior balcony: ___ covered
 - _____ Ceiling height; _____ Flooring
- Suggested room dimensions: _____x_____

16. The GARAGE needs to be adequate in size and have:

Number of spaces for cars: _____

Located: ___ at front, or ___ rear of home

- Detached; ___ located at rear
- Enclosed A/C and W/H area
- Attic storage trusses: ___ with stairway access or ___ pull down stairs
- Storage closet or: ___ x ___ size room
- Work bench area
- Single garage doors: ___ 8' wide; ___ 9' wide; or ___ 10' wide
- 8' ht. garage door (7' standard)
- 18' wide garage door (16' standard)
- Side access (walk through) door
- Golf cart door

Suggested dimensions: _____x_____

Garage Door Location:

- Front loading
- Side entry
- Courtyard side

Additional comments:

17. You may desire to have ADDITIONAL ROOMS within the home. Choose from the list below or create your own in the space provided.

- Exercise room _____x_____ dimensions
- Library: _____x_____ dimensions
- Media/Home Theatre: _____x_____ dimensions
- Wine cellar: ___ under stairs
- Power Bath (Half bath)
- Computer/study area
- Loft area: _____x_____ dimensions
- Full wet bar with seating
- Butler's pantry
- Sewing/craft/hobby room
- Sauna
- Storm/ Safe Room
- Mud Room/ message center/ storage cubicles

Additional area or comments:

18. ADDITIONAL FEATURES include:

- Central Vacuum
- Water Softener
- Gas water heater
- Glass transoms over 6'-8" interior doors
- 8'-0" ht. interior doors
- Plant ledges
- Art niches: ___ with lighting
- Piano space: ___ wall piano or ___ grand
- Security system

The Site

29. Please provide the following information for your site as indicated by Deed Restrictions and County or City Zoning Regulations:

_____ FRONT setback or _____
_____ First Level REAR setback
_____ Second Level REAR setback
_____ First Level SIDE setback
_____ Second Level SIDE setback
_____ SIDE STREET setback
_____ DRIVEWAY setback
_____ LAKE SHORE setback from _____

_____ Detached Garage Side setback
_____ Detached Garage Rear setback
_____ Min. distance between Detached
Garage & main structure (typically 5')

Impervious Surface Ratio:

___ % Impervious allowable (all floor areas,
concrete, pool areas, etc.)
___ % pervious surface (green space)

30. Please indicate the following Utilities:

Sewer:

- City/ County or
- Septic system

Water:

- City/ County or
- Well

Gas:

- Natural Gas
- Bottled (propane) Gas
